# Tactic Lite

RT Software's entry-level sports analysis solution

Tactic Lite

Easy to use, cost-effective but powerful 3D telestration for Soccer Academies, Scouting Departments, fast-paced indoor sports, Colleges, Universities, Analysts and Coaches who want to start explaining basic tactical principles using graphics.
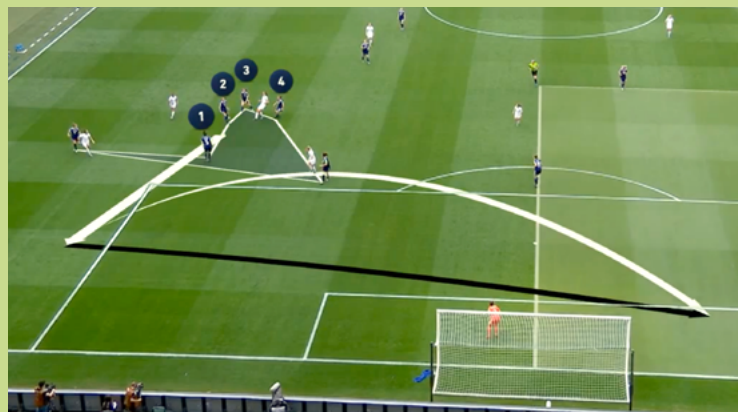

3D graphics in freeze frames combined with the easiest possible workflow make Tactic Lite the perfect telestration tool for quick but high quality analysis.

You can use your existing laptop to run Tactic Lite; no specialist hardware is required so you can be up and running in no time, it's that easy.

With no pitch, court or line calibration required, graphics can be easily placed and are automatically keyed to produce professional results with minimal effort.

Tactic Lite works with a range of sports and different video types, from team sports like football, basketball and rugby, to more individual sports like tennis.

Buying Tactic Lite is easy too. RT Software offers monthly, quarterly and annual subscriptions subscriptions, which are available in the online store.

Virtually No Learning Curve

It really is that easy to use. The intuitive nature of Tactic means that it can be used straight away. For those who want to become expert users, Tactic provides video tutorials covering all its features.

Interactive Graphics

With our innovative presenter function, you can add graphics live using a touchscreen or a tablet, engaging your players and creating an interactive learning environment.
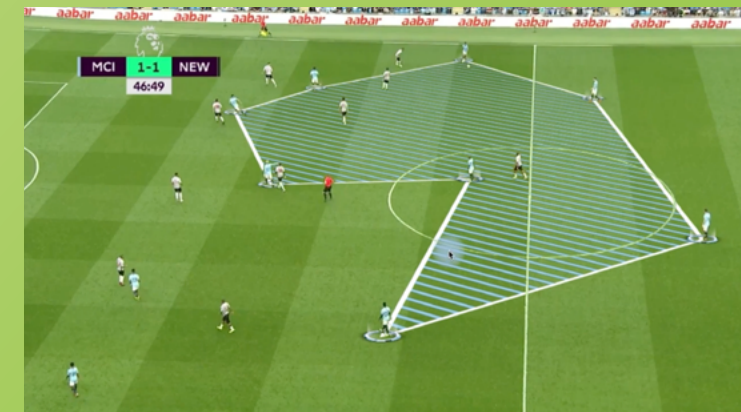

Coach Anywhere

With a simple export procedure, analysis sequences with all animations can be exported as a clip in any standard format to be replayed anywhere, laptop, tablet or phone.

Coaching With Visual Aids

Convey tactical and performance information in a way that ensures team members understand all the key points. Use graphics overlaid on the relevant frame to show the players exactly where they should have been and when.

Options Comparison

		Lite	Advanced	Pro	Scout
3D Tools	Matching camera position and angle to add 'on-pitch' graphics	✓	✓	✓	✓
Keying	Chroma keying (with auto function) and segment keying	✓	✓	✓	✓
Timeline	Advanced control of the timing of events within an analysis sequence	✗	✓	✓	✓
Virtual Stadium	A range of virtual stadiums for various sports are available	✓	✓	✓	✗
Presenter Interface/Tablet Control	The second screen allows the presenter to interact using a touch screen or a tablet	✓	✓	✓	✗
Save, Recall and Share Analysis Files	Easily save and load analysis files on any device	✓	✓	✓	✓
Camera Tracking	Track camera movement with one click and stay anchored to a position	✗	✓	✓	✓
AI Player Detect	Player detection allows the automatic tracking of players with easy corrections	✗	Optional	✓	Optional
Virtual Players	Explain tactical movements by adding male or female virtual players on the field	✗	✗	✓	✗
Metrics	Distance, run distance, speed, and angle graphics	✗	✗	✓	✗
AI Pitch Calibration	A field detection feature that allows users to calibrate a pitch with one click	✗	✗	✓	✗
XML Ingest	Ingest event files from data and tagging providers	✗	✗	✓	✗
Tagging	Cut the game clips with the tags you create	✗	✓	✓	✓
Available for Mac and Windows	Supports the two major operating systems	✓	✓	✓	✓

Multi-licence and multi-year discounts are available

Monthly, quarterly and half-year subscriptions are available in our online store.

ABOUT RT SOFTWARE

RT Software is an established graphics solutions company that has been working with leading broadcasters, such as the BBC, Sky Sports, TNT Sports, ITV, ESPN, Fox and many others, since 2004. What defines us is our ability to add graphics to video clips in order to highlight action or explain the gameplay.

Our products for the sports professionals market have evolved from the original top-end systems employed on air to much easier-to-use analysis tools, including powerful data visualisation solutions for recruitment and team management.

We are proud to have worked alongside some of the biggest names in the professional sports world to create these tools.

We have developed our Tactic suite of products (Lite, Advanced, Pro and Scout) to cater to the needs of every level of coaching and performance analysis – from amateur to the highest professional level.

"Tactic Lite has really impressed me. It is a great aid for coaches and analysts to start introducing graphical, tactical explanations into their match preparations and tactical analysis. It is easy to learn and the broadcast quality graphics make it the perfect tool to use for beginners in telestration."

Gerard Dunne
